Product Catalog-Domestic Flourmill

About Us

Appreciated, reputed and recognized for manufacturing and supplying a wide range of premium-quality kitchen and food-processing appliances, Jagruti Appliances LLP has been serving the industry since 1995. An ISO 9001:2015 certified company, we have built our reputation through consistent quality, modern technology and a strong understanding of customer requirements.

Our product portfolio includes domestic and commercial flour mills, pulverizers and food-processing machinery, along with our expanding range of home and kitchen appliances such as blenders, mixer grinders and juicers. By combining quality materials, modern technology and experienced professionals, we develop products designed to meet industry standards and evolving customer needs.

Our production capabilities enable us to manufacture products efficiently and in bulk quantities while maintaining consistent quality and performance. A structured quality-management approach at different stages of production ensures that the quality, reliability and functionality of our products are never compromised.

With decades of industry experience and a commitment to continuous improvement, Jagruti Appliances LLP continues to serve customers across India while expanding its portfolio of innovative home, kitchen and food-processing solutions designed to make everyday work easier, smarter and more efficient.

Director's Message

It is said that **a mile's journey starts with a single step.**

Starting from a small 100 sq. ft. manufacturing unit with limited machinery, today **Jagruti Appliances LLP** caters to a broad spectrum of customers. After years of continuous growth, we have expanded our manufacturing area to 35,000 sq. ft. We can proudly say that we have travelled quite far, yet we still believe that there are many miles to go and many dreams to be achieved.

The product range has expanded manifold over time. We are also gradually specializing in manufacturing custom-made products as per specific industry requirements and have thus become one of the major suppliers to OEMs worldwide.

Mr. Mansukh Patel
Director & Founder,
Jagruti Appliances LLP

"Quality is the best business plan we execute."

Mission

To provide high-quality and affordable kitchen appliances to every family.

Vision

To become India's preferred kitchen appliance supply chain by applying service, quality and innovation to create sustainable growth for businesses and society.
